Experience

SOFTWARE ENGINEER | 8/2020 – 3/2026

I-Tul Design and Software - Roseville CA

- Built custom client web based software such as loan calculators, customer management platforms, and service technician work order systems.
- Met with clients, project managers, and designers to gather specifications for website applications and software.
- Implemented back end systems using Laravel, CodeIgniter, and WordPress.
- Built API endpoints for phone App integration.
- Integrated 3rd party API features into websites including Google Maps, Gmail, PayPal, Stripe, Quickbooks, and Zonal.
- Created responsive web designs using HTML, CSS, and JavaScript.
- Optimized website layouts and design elements.
- Developed, tested, and debugged websites and web applications to ensure reliability and performance.

SENIOR DEVELOPER | 6/2018 – 4/2020
Bluespire Inc. - Minneapolis MN

- Maintained 'Community Center', a custom-built content management system (CMS).
- Updated and antiquated code in 'Community Center' and company websites.
- Designed and built new modules for the CMS.
- Trained new employees on how to build modules and cut website designs for compatibility with Community Center.

FREELANCE WEB DEVELOPER | 3/2013 - 6/2018

- Worked as a remote independent contractor and developer for Bluespire/Martino and Binzer during their merger.
- Performed many of the same tasks as I did while working as an employee there.

SENIOR INTERACTIVE WEB DEVELOPER | 4/2005 – 3/2013
Martino and Binzer - West Hartford Connecticut

- Lead developer on custom content management system called 'Community Center', built in PHP.
- Designed and built new modules for the custom CMS.
- Executed updates to lead management system (LMS).
- Developed websites and landing pages for retirement communities.
- Ran websites through tests to ensure they met WCAG accessibility standards.
- Added meta data and keywords to website for search engine optimization.

WEB DESIGNER | 5/2004 – 4/2005
Creative Energy, L.L.C. - New Britain Connecticut

- Designed websites and websites, landing pages, and website components in Adobe Photoshop and Fireworks.
- Sliced designs and built websites in HTML, Javascript, and ASP, using Macromedia (Adobe) Fireworks and Dreamweaver.
- Met with project managers to get design and development specifications.

Education

BA in Graphic Information Design | 9/1999 – 12/2003
Central Connecticut State University – New Britain, Connecticut

- Range of classes including Graphic Design, Computer Science, and MIS
- 3.55 GPA
- President of CCSU Chess Club.
